Messrs, Jos. I., Hall & Co., manufacturers of Hall's Mesars Jos, I. Hall & Co., manufacturers of Hall's Burglar and Fireproof Safes:

Dear Sir—Our large Hall's Fireproof Safe was taken from the ruins of Pike's Opera house this afternoon, after being subjected to the most in tense heat for four days and four nights, or about ninety hours, and our books and valuable papers, and United States Bonds deposited with m, were preserved in good condition. The fire was still burning with such intensity that, when taken out, if could not be opened till cuoted by a stream of water. We think we can say nothing more in favor of your invaluable safe than to state the fact, that this test, surely as severe an one as safes can be both to you and ourselves. Yours truly, WM. To the Citizens of Mississippi. THE termination of a sanguinary contest, which for the past four years has presented an impassible barrier to all social or commercial ntercourse between the two great sections our country, having at length happily cleared away all obstacles to a renewal of those relations which formerly bound us together in a fraternal union, I take the earliest opportunity afforded me by this auspicious event, to greet my Southern friends, and to solicit from them a renewal of that extensive business connection which for a quarter of a century has been uninterrupted save by the great public calamity to which I have adverted.

DE

It is scarcety necessary, on the threshold of a business re-union, I should repeat the warning so often given to my friends,—to beware of all those spurious and deleterious compounds which, under the specious and false titles of Imported Wines, Brandies, Holland Gin, Liquors, &c., have been equally destructive to the health of our citizens as prejudicial to the interests of the legitimate

Many years of my past life have been ex-pended in an open and candi- attempt to ex-pose these wholesale frauds; no time nor ex-pense has been spared to accomplish this salutary purpose, and to place before my friends and the public generally, at the lowest market price, and in such quantities as might suit

the medical Faculties of the United States, West Indies and South America as an invaluable Therapeutic, a wholesome, pleasant and perfectly safe beverage in all climates and during all seasons, quickly excited the cupidty of the home manutacturers and venders of a purious article under the same nam I trust that I have, after much toil and expense, surrounded all my importations with safeguards and directions which with ordinary spection will insure their delivery, as I

receive them from Europe, to all my custon I would, however, recommend in all cases where it is possible, that orders be sent direct to my depot, 22 Beaver Street, New York, or that pu chases be made of my accredited agents. In addition to a large stock of Wines,

Brandies, &c., I have a considerable supply of ord tried foreign wines, embracing vintages of many years past bottled up before the com-mencement of the war, which I can especially recommend to all connoiseurs of these rare lux-

uries.
In conclusion, I would specially call the early attention of my Southern customers to the advantage to be derived by transmitting their orders without loss of time, or calling personally at the depot, in order to insure the fulfilment of their orders out of the present selected assortment.

FLORENCE SEWING MACHINE CO. ...Dauphin Street 2 MOBILE, ALA.

Offers to the Ladies of Missssippi the celebrated

Reversible Feed Machine!

We claim for the Florence the following advan-tages over any and all Sewing Machines in the World World

It makes four different stitches, the lock knet, double-lock and double knot, on one and the same machine—each stitch being alike on both sides of the fabric. Every Machine has the reversible feed motion, which enables the operator, by simply turning a which enables the operator, by simply turning a thumb screw to have the work run either to the right or left, to stay any part of the seam or fasten the ends of seams, without turning the fabric.

Changing the length of stitch, and from one kind of stitch to another, can readily be dome while the The needle is easily adjusted, and does not skip stitches.
It is almost noiseless, and can be used where quiet get out of crear, and its simple of the under than to operate it.

It does not require finer thread on the under than for the upper side, and will sew across the heaviest seams, or from one to mere thicknesses of cloth, without change of needle, tenison, breaking thread, or skipping stitches.

The Hemmer is easily adjusted, and will turn any width of hem desired.

It will hem, fell, blind, gather, braid, quilt, and gather and sew on a ruffic at the same time. It has no springs to get out of order, and will last a life-time.

It is very simple, and easily understood and by the irregular contraction of a wire coll or uncertain operation of springs. The precision and accuracy with which the Florence draws the thread into the cloth is unapproached in any Sewing machine hither to offered to the world. We furnish each Machine with "Barnums sell WM.
